NCA OPENING SESSION:
GREATER REGARD FOR
ACADEMIC FREEDOM

Thursday, November 21 | 5:30 PM – 6:45 PM
Grand Ballroom C (Sheraton, 5th Floor)

PANELISTS:

- WALID AFIFI
University of California, Santa Barbara
- SHARDÉ DAVIS
University of Connecticut
- SARAH AMIRA DE LA GARZA
Arizona State University
- BRYAN MCCANN
Louisiana State University
- JULIE-ANN SCOTT-POLLOCK
University of North Carolina, Wilmington
- SIENA VINCENT
Tulane University

Although higher education has always been a key front in various culture wars across US history, the past several years have seen intensified attacks on academic spaces. Especially vulnerable are faculty and programs that center marginalized voices and critique powerful institutions. The offensive against so-called “woke” intellectual discourse has inspired state-level legislation and institutional moves that violate core principles regarding academic freedom. Campus speech regarding Palestine has been especially vulnerable to suppression over the past year. Given the events of the 2023 Presidential Address and the completion of reports by NCA’s Task Force on Academic Freedom and the Ad-Hoc Presidential Address Inquiry Committee, such reflection is especially salient for this year’s convention.

This session will start with Palestinian voices and then proceed to give a broad view of long-standing threats to academic freedom for many communities within our discipline, including NCA’s role therein. Racial justice, disability justice, and language justice will be at the forefront of the goals for this session, with an approach that creates space for attendee engagement and feedback and a plan to emerge with a path forward for accountability at NCA.

NCA CARROLL C. ARNOLD DISTINGUISHED LECTURE:

Beyond Us Versus Them: Communication, Community, and Empathy as Imperatives for the Betterment of Human Society

Friday, November 22 | 5:30 p.m. – 6:30 p.m.

In 1956, in his address before the First Annual Institute on Nonviolence and Social Change in Montgomery, Alabama, without ever using the term *empathy*, Dr. Martin Luther King Jr. urged human beings “to rise above the narrow confines of our individualistic concerns to the broader concerns of all humanity.” And he pronounced the new world to be one of “geographical togetherness” and “understanding goodwill.” But today not all is sweetness and light. What has gone wrong? Why, after some of the most stupendous innovations and achievements in history, from human beings landing on the moon to the presence of ChatGPT 4, which can write speeches within a nanosecond, to highfalutin machines that can make fresh orange juice in airport vending machines, have we not moved beyond human clannishness and xenophobia?

While there are myriads of factors that explain human clannishness, the Carroll Arnold Distinguished Lecture argues that the primordial capacities of our brains to form Us versus Them

dichotomies incline us toward tribalism, which in turn harm human relations and disturb societal flourishing. Because our brains are inclined toward Us/Them-ing, we must not despair, however. We must not act “as if” our “Stone Age Brains” have an unrelenting tyrannical hold upon us. We must not retreat and behave “as if” we are doomed. Rather, we must use our communication skills thoughtfully and humanely, if we are to sustain human flourishing for the common good,” the good we share in common.” Otherwise, are we to conclude that persuasion is dying amidst deepening chasms between Us/Them dichotomies?

Finally, the Lecture elevates the crucial importance of empathy in human affairs and argues why and how empathy matters. The Lecture also offers empathy as a practical path toward improving human relations, which should take us beyond viewing people with different values, beliefs, and ideologies as the “repugnant other” into a world of delightful possibilities. If not now, then when?

FIRST VICE PRESIDENT ACKNOWLEDGEMENTS

A convention of this magnitude requires so much time, energy, effort, and dedication from so many individuals. And, to add a 6-month series of Virtual Learning Opportunities (VLOs) creates an additional dimension of trust, work, innovation, and engagement. Yet, that is exactly the path we have successfully taken together. My gratitude extends wide and deep to the convention planners for their dedication and hard work in meeting deadlines and navigating new processes to accomplish this year’s convention programming. I am grateful to the NCA National Office Convention and Meetings team led by LaShawn Duckett as well as the NCA Comms team. Thank you for your can-do spirit of professionalism.

Thank you to the following group of scholars who so graciously agreed to lend their time, talents, and expertise to NCA as a presenter in their respective VLOs: Megan Pope and Vinita Agarwal (*Enhancing Our Mental Health and Well-being*); Sakile Camara and David Rhea (*Communication Program Reviews and Assessment*); Theon Hill and Bryan Crable (*Engaging and Nurturing Community*); Elizabeth Parks, Sharnine Herbert, Ryan D’Souza, Sean Upshaw, Byron Craig, Stephen Rahko, Amy Johnson, and Meredith Pruden (*Early Career Scholars Consortium*); Mohammad Tajvarpour and Stefan Bauschard (*Navigating Artificial Intelligence*); Walid Afifi and Noor Aswad (*Palestinian Ways of Knowing*); and Fellicia Harris and Sarah Geegan (*Career Fulfillment*). Each of you made it possible for our members to enjoy growth, connection, and insight.

Thank you to the following group of scholars who so thoughtfully served as the planners for our NCA Special Series Programming: Suzy Prentiss and Stephanie Kelly (*Great Ideas for Teaching Students*); Shavonne Shorter and Natasha Brown (Pre-conferences); Stephen Croucher (*Research in Progress Roundtables*); Jasmine Austin (*Scholar to Scholar*); Damion Waymer (*Scholars’ Office Hours*); and Sean Upshaw (*Short Courses*).

Thank you to the following group of Champion Facilitators who brought the First VP Spotlight Sessions to life through listening, ideating, and enhancing the vision for each spotlight session: Bradley Adame; Laura Bruns; Jennifer Edwards; Star Muir; Bryan Crable; Marnel Niles Goins; and Ron Jackson. Each of you happily accepted the opportunity to co-conspire, and I have thoroughly enjoyed working with you.

Thank you as well to the NCA Executive Committee and colleagues who have encouraged and supported me as First Vice President. From reviewing early drafts of the Call for Participation to sharing feedback at key VLO or convention milestones, you have been a wonderful resource.

I am especially grateful to the late Michael Pfau, Meta Carstarphen, Laurie Diles Norton, and University of Oklahoma faculty for their investment in my development and growth as a scholar. And, a very special thank you to my immediate family, Damon, Maicel, Savion, and Jaxon, as well as our extended families; I appreciate you and thank you for your love, fun, faith, example, and support.

NCA 111TH ANNUAL CONVENTION CALL FOR PARTICIPATION

“Communicate to Elevate”

November 20-23, 2025 | Denver, Colorado

Tina Harris
Second Vice President
Louisiana State University

PLEASE PLAN TO JOIN ME IN BEAUTIFUL DENVER, COLORADO, for the NCA 111th annual convention at the Gaylord Rockies Resort and Convention Center! The convention theme is “Communicate to Elevate,” which I believe captures the spirit of what I hope will be an amazing conference and time to gather and break intellectual and communal bread together. When I was tasked to with creating the conference them, I wanted a phrase that was not only catchy but would also inspire us all to continue with the important work we do in the discipline whether it is teaching, research, and/or service. Communicate to Elevate is metaphorical and celebratory, tipping a hat to the Mile High City that will be our host city. By participating in the conference, we are showing a commitment to advancing the discipline and our craft in the way most fitting for us and for different reasons. One truth that brings us together is the value we see in communication in its various forms.

Communicating to Elevate has two specific meanings to inspire us as we prepare for our time in Denver. First, it speaks to what I believe is our duty as members of this intellectual community to strive to help others realize their potential as we work towards our own. In other words, we are “lifting as we climb,” ensuring that we exchange wisdom and knowledge with others as we navigate the difficult terrains that we oftentimes face. Continuing to do so through trials and tribulations, but especially when we are triumphant over them. We actively seek opportunities to help others regardless of how successful we become. We mentor, advise, and support because it is a way to give back what was given to us or what we wished we had received. As we ascend to higher heights, we commit to bringing others along and creating spaces where others can thrive as well. Let’s put this to practice at the conference and submit papers, panels, and more that help us continue striving towards being the inclusive, transparent and support organization we are constantly working to be.

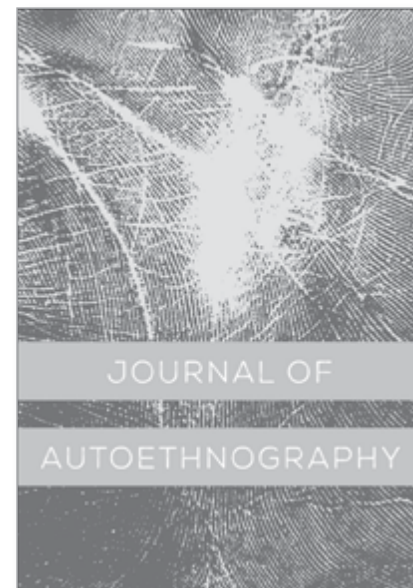

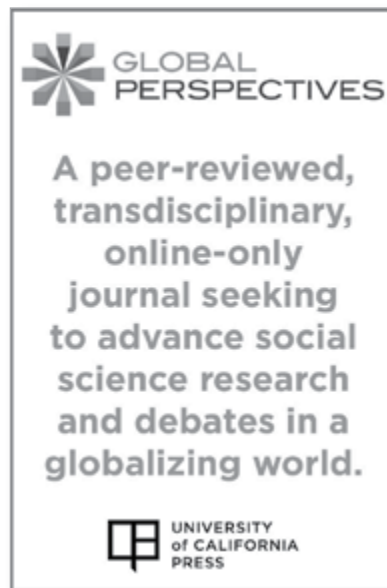

Second, Communicating to Elevate was created to conjure up a spirit of excitement about and innovation around the scholarship we are all committed to creating. We are taking everything we do to the next level, and we cannot do it alone. We must come together as a beautifully complex and diverse community whose differences are celebrated, communicated, appreciated, and respected. This also means that we are actively prioritizing communication and in its many forms, regardless of (or because of?) the theoretical, methodological, pedagogical, or practical underpinnings guiding our work. Communicating to Elevate requires that we work towards growth and continually affirm our evolution and existence as a field. The conference is a sustained opportunity to amplify the many voices, realities, and experiences that inform all that we do and who we are. Communication is fundamental to every aspect of life, and without our scholarship or instruction, where would the field be? Where is the field going? Together, we can play an essential role in determining our future, one filled with hope and promise.

The logo for the conference captures the nuances of what communication means to us all and hopefully elicits positivity on sight. The digital bouquet of balloons represents royalty (purple), hope (orange), and awareness (pink), qualities we all possess as a robust discipline that is constantly changing and growing. Moreover, these are qualities that NCA aspires to reflect to our members who are why we even exist as a collective. We are a beautiful community in terms of our race, ethnicity, culture, sexual orientation, gender, ideologies, politics, and spirituality as well as a multitude of theoretical, methodological, and pedagogical orientations. These qualities are what make us an Association of which we all can be proud. We are continuing to evolve into an organization committed to Communicating to Elevate, becoming better, stronger, and kinder through growth and change.

I consider it an honor and pleasure to be a part of the leadership team of NCA and helping us go to the next level in Denver. I have been an active member of NCA for 34 years, which has been my entire career, and I remain excited and hopeful about our future. Denver will surely heighten our excitement about all that is yet to come. We can come together as a community to celebrate who we are. I thank each of you, along with the NCA office staff and leadership, in advance for making 2025 yet another successful conference as we commit to Communicate To Elevate.

NCA 2nd Vice President
